Morrow Opens Campaign With Attack on Dry Law

Return to State Control of Liquor Traffic Advocated by Mexican Ambassador in Speech as Candidate for Senate Nomination

By The Associated Press

NEWARK N J May 16—Dwight W Morrow, ambassador to Mexico, who is seeking the Republican nomination for the United States senate, favors repeal of the eighteenth amendment and a return to state control of liquor traffic.

In a speech last night in Krueger's auditorium he called conditions after 10 years of federal prohibition as deplorable.

It is not fair to assume he said that all resentment against national prohibition is due to a desire for an unlimited license to be intoxicated. There is no doubt only in the United States that dislikes that the resentment is due to the feeling that an unreasonable control is being imposed.

States or subdivisions of states whose sympathy is not with the law feel themselves relieved of responsibility for enforcement. They leave to an overburdened federal government with a wholly inadequate police force the task of carrying out a great moral reform which before 1920 all the communities of the land in one way or another were wrestling with.

"I bring you no panacea for this deplorable condition. I know of no magical solution. I cannot however stand before my friends and neighbors and ask for their suffrage without having them know my attitude toward this problem.

"First I believe that the way out of the present difficulty is to recognize clearly the fundamental difference between the nature of the federal government and the state government. I believe this involves a repeal of the eighteenth amendment and the substitution therefor of an amendment which will restore to the states the power to determine their policy toward the liquor traffic, and vest in the federal government power to give all possible protection and assistance to those states that desire complete prohibition against invasion from the states that do not.

"If I should be elected to the United States senate I should be prepared to vote for a resolution submitting to the several states an amendment to the constitution in any form that would accomplish the foregoing purpose.

"So long as the eighteenth amendment and the statutes thereunder are the law of the land I favor generous appropriations for their enforcement."

Mr. Morrow said he favored the use of federal appropriations to keep liquor from entering the country and from passing from state to state.

He concluded [illegible] ward to the time when the great majority of the country will recognize that there is wisdom in the old system of experimenting in 48 laboratories rather than in one.

Opinions on Morrow Program Vary

By The Associated Press

WASHINGTON May 16—The announcement of Dwight W Morrow that he was seeking the Republican senatorial nomination in New Jersey as an advocate of the repeal of the eighteenth amendment was [illegible] by [illegible] in Washington.

Representative McBride general superintendent of the Anti Saloon League pronounced Morrow's stand as an out and out wet platform and said the question of prohibition's dry can[illegible] would be left to the decision of the state organization of the league.

Representative Hubbard Republican dean of the New Jersey delegation in congress said he approved Morrow's position but that he could not comment on any substitute plan for prohibition without giving the project thorough study.

The opinion that the country would not agree with Morrow was expressed by Senator Jones Republican of Washington the author of the Jones law providing heavy maximum penalties for offenders against the dry laws.

Morrow's stand was termed good judgment by Representative Graham Republican Pennsylvania and avowed wet.

NEW TEACHERS ARE PLENTIFUL

Many of Graduates Planning Entering Field Said To Be Over Supplied

BY MURRAY TOWERS
Staff Correspondent for The Star

COLUMBUS May 16—There are the days when teaching is looked at through rose colored glasses and there are days when the teaching profession is looked at with a jaundiced eye

And at the present time there are the days when Ohio teaching aspirants in the throes of graduation are entering the teaching profession They are looking at prospects with a jaundiced eye and wondering what the future holds for them

A recent survey made by students of Ohio State university to call the tremendous interest by teachers in the state There were far too many graduating this year for the number of positions available

Seek Suitable Field

Nevertheless these young people are trying to prepare themselves for all situations by looking this as the next step they must the next one just what that will be depends upon what kind of positions are there the most vacancies and other factors

Almost enrolled in high school teachers in Ohio teach English They do not necessarily do so all of their teaching time is English but that many—some 2 000—do teach some English is a conservative estimate This is about 30 per cent of the teachers in the state

These figures are disclosed in a survey just completed by Earl W Anderson of the applicants department of Ohio State university and published in the current educational research bulletin

Anderson conducted his survey among Ohio high school teachers and reports that his data is complete for three fourths of the high school teaching positions in the state last year

One fourth of these teachers were teaching mathematics and one fifth history

Probably more taught social science including civics sociology economics and problems than mathematics Anderson says

Latin Ranks Fourth

Latin came fourth in rank although considerable below the first three subjects More than twice as many taught Latin as French almost nine times as many as Spanish and 25 times as many as German

As a final aid to youths planning teaching careers the survey discloses that teachers of English mathematics and history were most plentiful whereas in salesmanship only ten teachers were reported The proportion of inexperienced teachers to all instructors varied from 41 per cent in science to none in printing journalism automobile mechanics metal work foundry machine shop electricity salesmanship and business training

IN SEVEN WEEKS KONJOLA SCORES FINE VICTORY!

Cleveland Lady Relates Happy Experience With Modern Medicine—Had Stubborn Stomach Trouble

MRS F L JOSEPH

"It is not only a pleasure but a duty I think to make public my happy experience with Konjola" said Mrs F L Joseph 1909 Hayden ave Cleveland "For several years my digestion was far below normal and no medicine after medicine would help me I became seriously worse For four weeks I lived on practically nothing for whatever I ate my stomach rejected it I became weak and nervous and was really worried over my condition

"A friend urged me to give Konjola a chance and though I had little faith left in any medicine I took the first bottle Now glad I am that I did The second bottle I knew that this was the very medicine I needed Greater improvement in my condition was soon apparent In seven weeks my stomach was as strong as ever What a joy it is to be able to eat whatever I like I am gaining in strength and weight and know what it is to have health again

"Konjola is not designed for mere temporary relief Quite it goes to the source of the ills of the stomach liver kidneys and bowels and rheumatism neuritis and nervousness When taken over a period of six to eight weeks the results will amaze those with even the most stubborn ailments

Tainted with Americanism.

The war waged against King George V and his Myrmidons by Big Bill Thompson of Chicago—we believe Myrmidons was the term the Windy City mayor applied to those he charged with being the friends and agents of the British king—is recalled by the fight being waged against the use of Yankee text books in the schools of the Canadian province of Quebec

It will be remembered that Mayor Thompson caused the ban of a history to be discarded by the Chicago schools charging that it was un American and pro British and written and published to break down American patriotism with the final result that we should be colonized and become the vassals of King George Our recollection is that vassals was the word the mayor used If he didn't he overlooked a bet

A joint committee of the Montreal board of trade and the Canadian Manufacturers association which has been making a study of the textbooks used in Quebec province reports that some of them are tainted by Americanism whereas Canadianism with due regard for British empire association should be their dominating flavor and recommends that they be abandoned for use in the province schools Referring to these books the report reads in part

They present throughout a forceful and not always soundly argued prohibition propaganda They feature and eulogize United States institutions customs practices and achievements and having been written by an American for Americans naturally they do not deal with any instance or anything from a Canadian viewpoint Furthermore and even from an American viewpoint they are replete with out of date theories They record and recommend practices which have long been obsolete and superseded by better things

The Gulick series of books on hygiene used in some of the public and high schools in the province of Quebec is undesirable for study by Canadian children The whole series is shot through with American illustrations both verbal and graphic In the volume entitled Emergencies the first sentence of chapter 28 reads The Fourth of July is our country's birthday and on the following page the Stars and Stripes is three times displayed It does not seem right the July 4 should be impressed on the minds of our youth rather than July 1 and that the American flag should be glorified

We are glad to note that the Canadian committee was content to make what has all the earmarks of just criticism without emulating Mayor Thompson and handing out hokum about this country having sinister designs on Canadian liberty The probable explanation is that unlike the mayor it hadn't any political wires to pull for self advancement.

New York City's Population.

An advance unofficial census report gives Greater New York—the five boroughs of Manhattan the Bronx Brooklyn Queens and Staten Island—a population as of April 1 of the present year of 6 940 910 a gain of but 411 992 over the city's population of 6 620 918 in 1920 and less than half the gain of 830 261 made between 1910 and 1920

The explanation for this falling off during the past decade from the increase during the decade immediately preceding it is that hundreds of thousands of our time residents of the congested districts of the city have moved to sections less crowded Some of these moved to the outlying sections of Brooklyn Queens and the Bronx and thus are still enumerated as residents of New York but many took up residences in districts contiguous to these three boroughs but outside their boundaries and hence can not be counted as residents of Greater New York

The enumerators have found that while Staten Island has held its own Manhattan borough has lost at least a quarter of a million residents and now stands second in population to Brooklyn Queens Brooklyn and the Bronx meanwhile have made great population gains the last named division now having approximately 1 2n0 000 residents whereas its population in 1920 was 732 016

Thus it may be seen that, as the population of the two are figured the American metropolis is still second in size of population to the British, Greater London having had a population in 1921 of 7 476 168

However were the population of Greater New York figured on the same plan as that of Greater London the situation would be reversed Great London is the name given the city of London which is geographically very small and the county of London and also all the communities on both sides of the Thames adjoining them an area of 697 square miles Were this same method followed in the case of New York the greater city would include not only the relatively small Manhattan and the other four boroughs of Greater New York, but also the adjoining communities of Westchester and Rockland counties with an aggregate population of 500 800 Nassau county and Huntington and Babylon townships in Suffolk county the combined population of which is 463 200 Bergen Hudson Essex Union Passaic Morris Somerset Middlesex and Monmouth counties in New Jersey with an aggregate population of 2 872 000 and Greenwich Stamford Darien Norwalk and Canaan townships in Fairfield county Connecticut with a combined population of 111 000 All these political divisions would have a total area of 3 767 5o square miles and a population of 9 172 000 as of the date of July 1 1926 when state censuses were taken

Frankness however compels the admission that the possibility that the divisions outside the state of New York which are named herein may ever be grouped as parts of Greater New York is very remote Not for the reason that a precedent for such a grouping is lacking—we have one here in our own state in Union City the major population of which is in Indiana—but rather because the states of New Jersey and Connecticut will never consent to a grouping which will cause a loss of identity to their cities and villages in what New Yorkers now term the Metropolitan district of New York

If New York is ever to become the world's largest city it will have to spread over Long Island and to the North for the past ten years have made evident that millions who now go to the greater city to follow their daily occupations insist upon living its suburbs or beyond its boundaries

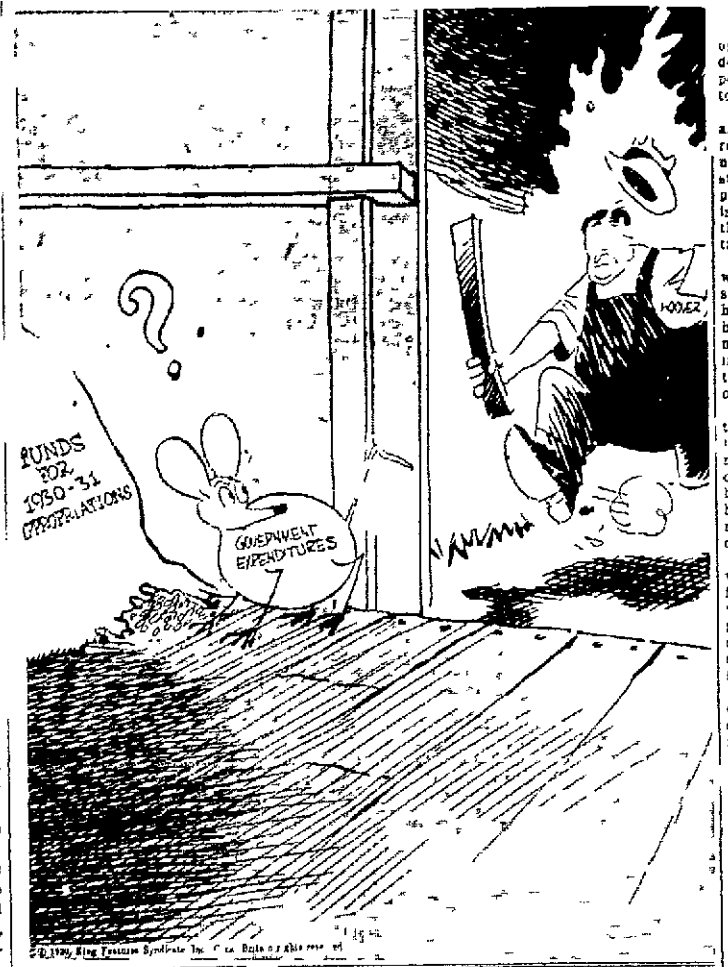
CURTAILING THE GLUTTON.



Editorial Opinion

SENATOR WHEELER'S BAD MANNERS

The president of the United States is the chief executive of all the people and not merely that of his own party He is the choice of the majority—and in the case of Mr Hoover the overwhelming majority—of the American people Both because of his office and of himself he is entitled to respect. But some members of the Democratic party particularly from the Far West and certain sections of the South seem to be under the impression that they are called upon to use the most abusive language on whatever they speak of the occupant of the White House

Thus the Democratic national committee is out with a statement from Senator Wheeler denouncing President Hoover because he is planning a trip to the various national parks in the West This is the first time says the polite senator from Montana that a president of the United States has felt it necessary or even advisable to resort to a barnstorming excursion to win the people back Then follows a long harangue attacking the administration and finding fault with practically everything Mr Hoover has done since he assumed the presidency We feel certain that this exhibition of bad manners will not be relished by the people of the West no matter what may be their political convictions

Senator Wheeler's outburst seems to be caused by the possibility that the president may make a few speeches during the course of his trip Why not? The announcement of his prospective vacation has brought a flood of telegrams to the White House from city governments business organizations and individuals each urging him to visit the city from which the message was sent For instance former Secretary Kellogg and Mrs Kellogg want the president and Mrs Hoover to be their guests in St Paul The only danger is that the pleasure of the trip may be spoiled by too much kindness That rests with Mr Hoover But the notion that the president should not go to any part of the country when he desires is too silly for words—Philadelphia Inquirer

SAIL FLYING

When Colonel Lindbergh flew across the Atlantic he was christened Lucky Lindy Three women stuck to him for some time after his special fest But as the expert and the layman began to ponder on the ability of Lucky Lindy the way in an uncharted course of over thirty three hundred miles of the Atlantic ocean the colonel was less and less often referred to as Lucky When he came back to this country and made his trip to Mexico and South America the title that had been first given him was relegated to the limbo of forgotten things

In the past month the colonel has shown just what makes him the outstanding flyer that he is From California to New York breaking the world record by more than three hours and from New York to Lamina over a new course that required the most expert navigation and luck again to the Eastern metropolis in a space of time of less than three weeks such demonstrates ability of the highest degree Always on schedule and amazingly free from accident Lindbergh single-handed has probably given the public more confidence in flying than any other individual Lucky is no more In his place is a man who by sheer skill and good equipment has given the world a lesson in safe flying—Washington Star

THE $1 40 DOLLAR

The value of America's purchasing dollar continues to rise In other words commodity prices continue to settle toward the level of final stability According to statistics just compiled by the federal bureau of labor statistics prices now are lower than at any time since September 1916 Last month the dollar actually was worth $1 10 in the wholesale market and in February it was worth $1 04 based on the average of 1926 even as during the year of 1920

Contrary to some opinion this settling of commodity prices has no direct relation to the stock market slump of last fall It is a part of the post war readjustment The inevitable plunge from peak war prices came in 19 1 and 1925 and was followed by an upward swing The low water downward began in September 1929 and now prices are at almost the level they reached in February 1922 That the effect of post war depression should be felt is natural Most civil war prices declined to [illegible] Business today is generally [illegible] and sharply such changes are steady—New York Post

Acne from Rich Diet

BY ROYAL S COPELAND M D

Health is an important matter perhaps the most important thing in the world Without it nothing seems worth while Those who lose it would give everything to regain it

Many persons write me during the course of a week asking about the various diseases One letter has just come to my desk asking about acne that very common skin trouble of young people

The underlying cause of acne is impaired health from one cause or another All imperfections of the skin are likely to indicate that something is wrong with the choice of foods or with other habits of living Neglect of the diet leads to many ills

Acne is a disease of the sebaceous gland These glands are scattered over the skin being located wherever the hair grows At the base of each hair there are one or two glands They furnish the hair with an oily or greasy material lubricating it and keeping it soft Without this oil the hair would be brittle and readily broken

Many boys and girls from the age of twelve to twenty are made miserable by the skin disease commonly known as blackheads Pimples and hard red sores frequently accompany this condition a form of acne

Very often acne is most persistent The face is disfigured by the scars of these sores some of which last for years It is very embarrassing too for it comes at a time in life when young people are becoming interested in social life

Improper diet has a great deal to do with acne Children and many adults for that matter eat too many sweets and starches and rich foods in general Too much fat hot biscuits and rich sundae are sure to bring their day of reckoning It is this sort of thing which leads to constipation

When the diet is made up of such things there is no appetite for the very necessary foods like fruits and vegetables milk cereals and butter No one can have good health who does not include these in the daily diet

A person who has a bad skin should drink quantities of water In this way the waste of the body are carried away as they should be Activity of the bowels and kidneys is most essential

Exercise in the open air vigorous enough to cause the skin to perspire is another important thing Perfect cleanliness of the skin of head face and body is very necessary The victim of acne should take a warm bath daily rubbing vigorously afterward with the bath towel

Have a simple diet with plenty of fresh vegetables and fruits milk cereals and only very moderate amounts of meat and fish Be out of doors in the fresh air and sunshine Get plenty of sleep All these things are necessary to maintain good health and if your health improve your skin should also take on a healthier condition

The [illegible] observers of the [illegible] of light [illegible] photographic [illegible] demonstrated the existence of a [illegible] expected a new Saturn planet [illegible] to our attention the wonder of [illegible]

New devices of a less spectacular [illegible] are constantly being made which are [illegible] recorded in terms of the greatest [illegible] nominal observer [illegible] It is only when the startling discovery bursts forth on the front page of our morning paper that our attention is sharply arrested and our minds turned to the wonders and marvels of the heavens that astronomy

The difficulties under which the astronomer works are scarcely realized by the man in the street. The observer often has to wait for hours at a time through the long night with his eye glued to the eyepiece of his instrument which by a mechanism arranged may be in uniform motion following the movement through interstellar space of the celestial object observed

Moreover immense care has to be exercised to prevent as far as possible the warping of the mirror Consider for example the [illegible] mense precision employed in the construction of one of these huge mirrors No area can be much more than 1 000 000th of an inch higher or lower than other portion of the mirror without affecting the quality of definition

When in use these glass [illegible] conducts heat very slowly a thin film of glass at the surface and edges of the mirror becomes chilled while the interior remains at a higher temperature A very large mirror such as that of the great new 200 inch telescope now under construction may have a distorted figure for an entire night through

This difficulty will be in large measure overcome in the case of this huge new telescope by constructing the mirror out of fused silica or quartz which expands or contracts [illegible] with changes of temperature

Great care has to be exercised in the location of one of these great cosmic fact finders in order to secure the most desirable atmospheric conditions As you look up at the heavens at night you often notice the so called twinkling of the stars This phenomenon is due to the fact that masses of air of different temperature and density are passing between us and the star

If we are looking at the star through a telescope these passing masses of air refract the light of the star by different amounts and there is a consequent quivering and blurring of the stars image It is essential to locate the observatory where atmospheric conditions are very uniform without abrupt weather variations and where the average wind velocity is low

Astronomy today is particularly concerning itself with a study of those extremely remote but fascinating objects the spiral nebulae There is a regular series of forms believed by Shapley and others to be the genetic in character including spiral elliptical and globular nebulae

It is not known how many of these immense celestial configurations exist but perhaps as many as 1 000 000 are within reach of the 100 inch reflector on Mt Wilson and the great new telescope should bring into view several millions more

The methods developed by Shapley for determining the luminosity of such huge bodies has led to a determination of many other facts about them—notably their dimensions and distances away from us Consider for example one of the most remarkable and impressive of such bodies yet studied the Andromeda nebula It has been estimated to be distant about $40 000 light years or in miles 5 000 000 000 000 000 000 Its dazzling brightness may be guessed at from the discovery that it is about 1 500 000 000 times the light of the sun In mass it is perhaps 1 000 000 000 times that of the sun —Copyright 1930 International Feature Service Inc

The Way of the World

BY GROVE PATTERSON

Most of us give ourselves more credit than we deserve We accept responsibilities and meet obligations and perhaps hear somebody tell us we are quite noble And we tell ourselves we are noble The fact is probably that we are only taking the easiest way doing the easiest thing We accept the responsibility or meet the obligation because we do not wish to fuss about it or fight about it Some people thought to be high minded are grand are only weak

Emily Blair writing in 'Good Housekeeping' tells mothers that instead of acting as literary censor and trying to keep daughters from reading modern books deal frankly with life and its problems will do well to read the books themselves they will know what their daughters are thinking

We often make the mistake of trying to find out what our sons and daughters are thinking about We try to tell them what to read and how to read and what to read not to do and all the time we really don't know what they really want to do To stand mouth to mouth today is a problem—but this is mighty hard to solve But nothing in life more worth while is ever without a problem

LIFE RESIDENT OF COUNTY DIES TODAY

Amos Barr Gray, 89, Called at Home of Daughter; Funeral Services Sunday.

Amos Barr Gray, 89, life resident and one of the best known farmers of Marion county, died at 10:15 o'clock last night at the home of his son-in-law and daughter, Mr. and Mrs. Fred Hoch, west of the city. His death followed an illness of three and one-half months of heart trouble.

Funeral services will be held at 2:30 o'clock Sunday afternoon at the Gray homestead at DeCliff, where the body will be taken Saturday morning. Franklin Blackmer, head of the Urbana University school, Urbana, officiating. Interment will be made in the family plot in the Meeker cemetery. Friends may call at any hour at the Hoch home or the residence at DeCliff.

Mr. Gray was born April 23, 1841, in Marion county and spent his life in the vicinity of Meeker and DeCliff. He was the son of George and Mary Jane Barr Gray, natives of Delaware and the grandson of Frazier Gray a soldier of the Revolutionary war. Mr. Gray's marriage to Miss Elizabeth Guthery took place May 2, 1866. His religious affiliations were with the Swedenborgian church at Urbana. Mr. Gray resided at his home at DeCliff until January this year, when he moved to the home of Mrs. Hoch.

Surviving are two daughters, Mrs. Hoch, and Mrs. C. B. May, of Ann Arbor, Mich., one sister, Mrs. Mary Humphreys, South State st., this city, and three grandchildren. Mrs. Gray died in 1906 and a daughter, Mrs. Will Hunt, of DeCliff, died Jan. 29, this year. Two sons, Eugene and Ernest, one sister, Sarah, and four brothers, Henry, David, James and John Gray, also have preceded Mr. Gray in death.

BELIEVE CLAIM OF WOMAN ESTABLISHED

Records Bear Out Assertion of Self-Styled Wife of Slain Cleveland Doctor.

CLEVELAND, May 16 — The claim of Mrs. Eunice Rockwell, 32-year-old mother, that she was the secret wife of Dr. Alfred P. Scully, who was murdered last March 3, was believed to be firmly established here today.

Word from St. Petersburg, Fla., reiterated the woman's statement that the house in which she lived there for the last several years, was the property of Dr. Scully. Officials also said that court records at the Florida city showed that Dr. Scully owned two other pieces of property there.

Mrs. Rockwell's attorney, Mark Patterson, announced today that he hopes to have definite proof of the secret marriage within a few days. She contends that she and the slain physician were married in 1915 while she was a student at Baldwin-Wallace college.

Further facts leading to the belief that Mrs. Rockwell was the wife of Dr. Scully, were uncovered yesterday with the finding of a lock of hair tied with a red ribbon in the effects of the slain physician. Mrs. Rockwell claims the hair was hers.

PEIPING, China, May 16—A great battle which has been raging between the forces of the Nanking government and the northern alliance today was passing into its major phase.

The troops have been in contact for some hours. Clashes between advance bodies have resulted in severe casualties.

The Nanking government today announced its intention of bombing Cheng Chow by air. Cheng Chow's foreign interests have been warned to depart.

in other cities. These gifts do not include subscriptions of local representatives of these companies, but are distinctly a firm or corporation subscription.

The foreign corporations reported today are: Richman Bros. Co., Dayton Biscuit Co., F. W. Woolworth Co., J. C. Penney Co., S. S. Kresge Co., W. T. Grant Co., Montgomery Ward & Co., City Loan & Savings Co., and Cousins & Fearn Co.

Folders Distributed

Thousands of small folders were distributed among school students of the city today through cooperation of Supt. G. A. Bowman, and school principals. Each principal has been instructed to supervise the distribution of these folders which contain a small green feather, a reminder of the red feather which is the official motif of the Fund.

"Put a feather in your cap" is the story the folder tells. The green feather is the sign of the school division of the Community Fund. The custom of wearing a feather was instituted in 1175 when the Black Prince of Europe decreed that when one of his brave knights performed an unusual act of valor or chivalry, a feather should be placed in his cap.

The opportunity for valor and chivalry are still to be performed, with dragons of misery and unhappiness to be slain, the folder denotes.

MISS COLLETT LOSES BRITISH GOLF TITLE

American Makes Poor Showing in Final Match with Miss Fishwick.

Continued from Page One.

even the most sanguine in the pro-British gallery had had no great illusions.

Not Betting Favorite

Miss Fishwick, in fact, had been quoted at one to five when she started out with the American this morning but rapidly claimed the spotlight as she played steady, if not inspired golf, to take advantage of Miss Collett's mistakes which were many and sometimes glaring. She was generally weak with her irons and, on the few occasions when her pitcher obeyed her will, her putting came forward to betray it. Twice she missed three-footers and once a two-footer. In all, she won only six holes of the 35 played.

A gallery of 5,000 saw the finish of the match and shortly after the cup, almost as big as Miss Fishwick, was presented. Miss Collett was presented the runner-up cup.

Miss Collett had no excuses saying she simply could not get going to beat the English girl's strong game.

O. S. U. STUDENTS IN BIG PAJAMA PARADE

Freshmen Caps Burned on Bonfire; Spectators, Marchers Greeted with Eggs.

By The Associated Press

COLUMBUS, O., May 16—Only scattered egg shells and fragments of garments remained today as reminders of the freshman-sophomore battle and pajama parade at Ohio State University last night.

The freshmen heaped their little red caps high on a bonfire and burned them—but not until after a good natured and severe scuffle with the upper classmen. Garments were torn asunder, and a bombardment of eggs rained on participants in the melee and bystanders alike.

The pajama parade saw 500 first year men at the University marching down High street, a main stem of traffic in this city. In the downtown district police gently and firmly dissuaded the marchers from entering theaters.

In the university district trolleys were detached from wires, and generally bedlam prevailed.

Just to show that there were no hard feelings, the marchers cheered police, who escorted them part way on their parade.

GOVERNOR WINS

Wisconsin Executive Exonerated on Charge of Illegal Campaign Practice.

By The Associated Press

SHEBOYGAN, Wis., May 16—Exonerated on the charge of excessive campaign expenditures by a jury's special verdict, Gov. Walter J. Kohler today celebrated his "vindication" as he awaited the final verdict in his ouster suit from Circuit Judge Gustave Gehrz.

A final decision on the charge that Kohler violated the state's corrupt practices act by expending more than the legal $4,000 in his 1928 campaign will be given within a few days.

Concluding a trial that lasted 23 days, the jury last night returned evasive answers to questions submitted to it, under a special verdict ruling which indicated the jurors believed the governor not guilty of the charges of entering a "corrupt bargain" with conservative Republican organizations and with his company, then Kohler corporation, to expend more than $100,000 in behalf of his candidacy.

Thaw To Try Entry into England Again

By The Associated Press

NEW YORK, May 16—Harry K. Thaw, who on his last visit abroad was refused admittance to England, was on aboard the Ile De France today in another attempt to crash that country's gate.

He referred questioners to William Gilmore, a playwright, who said: "Mr. Thaw doesn't have to fear anything on the part of British officialdom under the new ministry."

At the time of his exclusion two years ago it was contended Thaw was a foreigner who committed an act for which he might be extradited.

PEACE PROSPECTS IN INDIA BRIGHTENING

Expect Government To Commence Negotiations with Revolting Natives.

By The Associated Press

BOMBAY, India, May 16—Indian peace prospects brightened today when announcement was made in liberal quarters of an early expected government move for negotiations with Mahatma Gandhi, civil disobedience prisoner. A government meeting at Bombay and a secret session of the all-India congress, held simultaneously, presaged decisive action in some direction, it was declared, before the week-end.

While these reports were going abroad, Mme. Sarojini Naidu, successor of the Mahatma and Abbas Tyabji, was arrested early today for attempting a salt raid at Kharasana and shortly afterward set at liberty. Mme. Naidu and her band of volunteers had sat in the road outside of the village since yesterday forenoon, when halted by police.

Some of her followers were detained after her release. All were given food and drink, from which they had abstained during the entire time of the roadway impasse.

Violent rioting occurred late yesterday at My Mensingh, Bengal, in which about 90 persons were injured. The clash occurred over delivery of liquor and herbs used to make liquor, from the government depot to retail shops. Carts with armed guards were obstructed by civil disobedience volunteers. The police charged when the disturbers became violent.

Cooper Views Housing at State Reformatory

By The Associated Press

MANSFIELD, O., May 16—Governor Cooper and his special Ohio welfare committee arrived here today for a tour of inspection and to consider plans for improving housing conditions at the state reformatory.

The governor and the committee were accompanied by Hal H. Griswold, state director of public welfare and Robert Sherwood, assistant director.

The committee indicated that it wished to consider whether the construction of a new dormitory here as authorized by the last legislature should be carried out or whether the prison had been expanded to its capacity.

Waldo School Closes with Community Affair

School at the Waldo Centralized building closed yesterday with a community picnic and a program presented by members of the Senior class under the direction of Miss Juanita Allmendinger, English instructor. A feature of the day was a program of athletic sports directed by J. M. Clark, athletic coach, in which members of the sophomore class won the baseball tournament.

Pupils of the grades and high school were given their grade cards at 4 o'clock this afternoon.

WALKER CUP AGAIN COMES TO AMERICA

Team Led by Bobby Jones Easy Winner Over British Adversaries.

Continued from Page One.

St. George's vase tournament last week, three and two in a bitterly contested match.

The first British victory to be recorded was that of T. A. Torrance over Francis Ouimet. The Englishman, who made such a brilliant showing in the foursomes yesterday, overwhelmed Ouimet with a superlative brand of golfing skill, winning seven up and six to play.

The British started out on the all-important singles under the terrific handicap of only one point against three, result of America's thoroughgoing wins over the British teams in the foursomes yesterday. An even break in these opening games would have given the contenders a better chance, but as things stood they need a miracle to achieve their lifelong ambition of lifting the cup from America.

It was a rampaging, gifted Bobby Jones who captained his team to victory today after the first nine holes. Wethered never had a chance. They end all square at the end of the first nine, and from then on Bobby Jones tasted triumph and never looked back. Playing matchless golf, the Atlantan ended the morning round seven up and came out for the afternoon play facing a situation entirely to his liking.

He trounced the British leader unmercifully, giving him only one hole of the afternoon round, which ended on the twenty-eighth. Wethered had played a good game at the outset, and with the exception of a six in the afternoon, maintained a fairly high standard throughout. But next to Jones he looked a tyro.

State Road Proposed To Honor Soldier Dead

By The Associated Press

COLUMBUS, May 16—Columbus civic organizations today were preparing tentative plans for a road of remembrance extending from Lake Erie to the Ohio river and to be dedicated to the Ohio soldier dead.

The organizations propose that state route 31, running from Toledo through Columbus to Middleport on the river, be improved and dedicated for this purpose.

Under the proposal a small tree would be planted along the highway in memory of each soldier from Ohio who perished on the battlefields of Europe or in army service during the war.

When preparing the the stalks from the tip as they are brittle The rood and washed and the flavor of the juice the secti n of asparagus the table at all After is extracted these potatoes are thrown away

A good bunch of asparagus is tonight, and with the abundance o prime quality on the market th son there should be no difficulty in getting a good bunch invariably The tips should be firm and compact not close and spreading If the tips are loose and inclined to spread tha sign the asparagus is old If the stalks are ribbed that's another indication Fresh cut asparagus has smooth stalks and requires little washing no scraping merely a re- moval of the few small scales

Another sign of good asparagus is weight When the stalks are old and woody naturally the juice has evaporated which makes the bunch light weight On the other hand fresh asparagus is not only plump in appearance but heavy in weigh

GIRL RESERVES HOLD SERVICES AT SCHOOL

Vernon Heights Students Hold Recognition Ceremonies at Assembly.

The Girl Reserves of Vernon Heights school held their impressive recognition services in the assembly Thursday afternoon before the student body. The gymnasium was decorated in blue and white, the Girl Reserve colors. During the installation services the girls formed a triangle, the officers of the organization forming the base. In front of the table were lighted red, white and blue candles.

Singing by the entire assembly opened the program. Mary Gracely gave a marimba solo, followed by a group of Girl Reserve songs, sung by the Reserve members. The services opened with a processional, "America the Beautiful." Mary Gracely, president, gave the invocational, followed by devotionals by the chaplain, Ruth Rutner. A talk to the old members of the Reserves was given by Beatrice Uncapher, vice president, with responses by Elizabeth Howser, Mabel Beaver, Marguerite Leffler, June Price and Doris Roberts. Doris Roberts also took part in the candle lighting service. Miss Lela Brookshire, faculty advisor, offered prayer.

The recognition services and welcome for new members was in charge of the president, Mary Gracely. The new members were given the Girl Reserve pledge, which was followed by a song, "Candles Glow." Miss Brookshire gave a talk to the old and new members, after which Marjorie May made the acceptance of the challenge. Prayer was given by Imogene Metz and Miss Brookshire. The service closed with a song, "Follow the Gleam."

MOTORING NO LONGER REQUIRES *"costumes"*

The linen duster, goggles and the motoring veil went out of fashion when people stopped thinking of the automobile as "the horseless carriage." Nowadays, nobody puts on special apparel for a Sunday drive. ¶ And Shell Motor Oil has helped make motoring a matter-of-fact necessity. As the automobile developed, Shell has regularly anticipated lubrication requirements. Always a step ahead, it is ready now for the models which will be announced next year. ¶ That is why owners of all kinds of cars are turning to Shell Motor Oil in ever increasing numbers for the protection they know their engines must have. All the world knows that if the Shell organization cannot make a quality lubricant, no organization can. Have you tried it?

STOP AT THE SIGN OF THE SHELL . . . *Millions do*

WHY BE SATISFIED WITH LESS THAN *1930 lubrication?*

RADIO NEWS AND PROGRAMS

Franco-Spanish Symphony Made Over for Revue

WILLIAM MERRIGAN DALY, that maestro from the rarified reaches of Broadway, via Harvard, who brought "slow tempo" to radio music, will offer a choice morsel to the musical connoisseurs and those not so sophisticated who hear tonight's Raleigh Revue over Station WEAF at 9 o'clock.

From the Frenchman, Chabrier, Daly has taken the celebrated "Espana," a fanciful symphone originally written for a Hungarian orchestra, has re-scored it for the unique Raleigh musical ensemble of regular concert orchestra and piano duet and has interjected a vocal arrangement so that the voices of the Boxers may be used as component parts of the instrumental rendition.

When Chabrier wrote "Espana" he took a group of old Spanish folk songs, Castellian jingles, fiery dance tunes, and Asturian fandangos, all fundamentally simple, and blended them into a rich and delightful symphonic composition. It captivated Europe, and the Alsatian Waldteufel was so taken with it that he wrote one of his famous waltzes from it, using the same melodic lines and rhythmic patterns. It remained for Daly to translate it into the modern American idiom without losing any of its unique French-Spanish flavor.

The program is sponsored by the Hickok Manufacturing Company, of Rochester, New York, and will feature Phillips Carlin in detailed descriptions of ancient sports in modern fashion.

"Ben Hur Drives a Mean Chariot" has been chosen as the subject of the premier broadcast. It will be nothing less than a wheel by wheel description of the famous race between Ben Hur and Messala, which took place at Antioch, Ben's home grounds, on June 14, 305 A. D.

If You Have Bad Feet

Read What This Grateful English Woman Writes About Radox

Fifteen years ago I began to suffer with bad feet and corns and as time went on they got from bad to worse thus making life a misery I was recommended to try Radox (after spending a small fortune in one cure or another) I found very great relief in a very short time I am pleased to say that my corns also the hard skin from the soles of my feet have disappeared and walking which was a torture is now a pleasure I can assure you that I recommended Radox to all my friends

Mrs L P W
Peterborough England
2nd September 1929

When you put your foot into a footbath containing Radox the salts soften the hard outer layers of the corn and the oxygen which Radox liberates enters the pores opens them and penetrates further and further carrying the corn softening salts right into the root of the corn which is thus loosened so that it can be lifted out bodily

Get a generous box of Radox at Bradley's Drug Store or any druggist in America—a few minutes bath three or four successive nights will rid you of the pain and callousses—Adv

CHAPTER 9

At High Tide

THUS [illegible] notebook Sam [illegible] closed himself to the [illegible] to know the whereabouts [illegible] between 6 30 and [illegible] was in my room dressing for dinner he explained calmly Manning was with me

"That right Manning?"

Indeed it is, sir Manning's voice threatened to become hysterical I was by every means available Do please believe me, sir Manning clasped her hands imploringly

All right Manning He appraised Miss Jahries Name

Anita Jahries, best chosen"

Where were you between half past six and seven

In my room resting

Any one with you?

No Miss Jahries seemed calmer now Mr Annersley was sitting on the north terrace My room is down stairs looking out on the north terrace"

Did he know you were in your room

Yes Miss Jahries hesitated again The window was open and he was smoking He asked me if the smoke bothered me

You were in your room until seven"

Until about five minutes to

And Mr Annersley was on the porch all that time

Well can be from his cigar blew brought his window and I heard him move from time to time

Samuel frowned

Miss Jahries what did you do after you took Mr Hunt up to his room?

I helped Lum We with the salads, and arranged flowers in the dining room And I gave Mr Filque Mr Parrish's message

All right Samuels grunted You, next and he looked at Grainger Name?

Paul Grainger I'm the gardener and odd job man

What were you doing between half past six and seven?"

Having my supper in the kitchen

Were you alone?"

No Lum We was working over his dinner"

Hmm You people seem to run in pairs Were you there all the half hour

Yes

How long have you worked here

Celia was staring at Grainger a feverish expression in her eyes

About two years, Grainger muttered

Ever see anything that might hook up with this shooting

I tend my own business,

Answer my question Samuels commanded

That's all the answer you'll get Grainger thrust out a stubborn chin

How'd you come by that bruise

A eucalyptus clashed me across the cheek Grainger said

All right Grainger You next Lum We and Samuels beckoned to the little Oriental Sjoekum ever English

Lum We bowed politely That could be a superlative Mr Samuel Your exquisite tongue is a dragon but I have slain him

A ripple of amusement ran through the group

You heard what Grainger said Lum We? Samuels demanded

I have the ears of an eagle Mr Samuel

You were there all the time

It is inevitable

How long have you been here Lum We

What is time? Who can decide?

About nine years Mrs Parados said

That's all just now Lum We Samuels said abruptly and he turned to Johns I suppose you have an alibi too?"

Does an honest man need an alibi Professor Johns inquired

He wouldn't if the world played fair Samuels admitted

And I doubt if it ever will Professor Johns declared But I'm afraid I haven't an alibi I was in the tower of the fort writing until half past seven

You cannot substantiate that?'

Not unless you can induce those ancient bricks to speak Professor Johns smiled But my word never has been doubted

I'm not doubting it These questions must be asked Let's see you are—'

Herbert Johns the marine biologist

You've been on San Lucas a good while haven't you?

It must be 20 years

You and Parados always good friends

Mr Parados had no friends

I am asking you Professor

We had our differences certainly It would be impossible to know Mr Parados for 10 years without differences

Samuels was about to address himself to Celia when Hendricks stepped forward

I'd like to say a word for the professor he announced I believe I can give him that alibi

Let's hear it Samuels said curtly Your name?'

John Hendricks I have run the launch a couple of years

Go ahead'

I'd been to La Playa for the afternoon mail I left around six as usual It would be six thirty when I tied up below I went up to the house and left the mail on the hall table Professor Johns had asked me to get him a book out of the La Playa library — Spencer's Biology—and I went right up with it He talked a minute then I sailed out

There's the alibi When the tide is very low you can just about get across the Gut When it's high as it was between six and seven tonight no man that ever lived could make it It's only a couple of hundred yards from the tower to the house but it's a mile around by the head of the Gut and that means 15 or 20 minutes walking The professor was in his room He didn't look as if he had been running and he hadn't walked ahead of me And it must have been seven when I left him

Samuels nodded How about your own alibi?

You mean I could have done it before I took the professor his book?"

Yes"

I guess I'm out of luck' Hendricks grinned But I wanted to set the professor right He's been mighty decent to me"

Why didn't you tell me about him bringing you that book?" Samuels demanded irritably

Is it important?" Johns asked

Important!" Samuels exclaimed.

It lets you out that's all!"

A Story of Humorous Boyhood Adventure

By JUDD MORTIMER LEWIS

THIS was Friday and it is past and more school this week and [illegible] week of school lacking one [illegible] ing and can go hunting, mud [illegible] ds snakes all we want to and [illegible] es and dewberries and [illegible] es and pollywogs A fella can [illegible] lot on fun in the summer

I [illegible] bed Jubilee out of bed and [illegible] got hold of the cover and [illegible] off of me so I got up and let her [illegible] down by his rope and the cat went right under him and he didn't see them and the cat didn't see him till he landed on it and then she yowled and spit and swole her tail up and Jubilee cussed under the house and [illegible] ants stick her head out of her window to see what was the matter and I was pulling the rope up and the other end of it swung over and hooked the back of her neck and she yowled worse than the cat had and began slapping the back of her neck with both hands and I yanked up the rope and dodged back out of sight and put on my britches and went downstairs, and my mother came out of my aunt's room and asked me what I was grinning about and I said because I was so happy that Annabelle Lee had got well and she patted me on the head and said we all ought to be very happy I asked her if I had heard someone holler and she said a spider had got on my aunt's neck and scairt her I took the pail and went out to milk the cows

The bunch came whilst I was milking and Louniss wasn't with Maggie and Feeble but she was in the house when I went in and she asked me where my little girl was and I told her that little girl was no friend of mine and I didn't know who she was. Louniss said she knowed her and that she went to a private school because she was too high toned to go to a school with common boys and girls I said maybe so but she had the worst case of gimmies I ever saw and that seemed to please Louniss and she didn't talk about her any more Then my aunt said she hoped I wasn't thinking of getting married and I told her I wasn't thinking of getting married any more than she was and my grandfather said All the time eh? Then my aunt told him he wasn't in any danger and he laughed and said neither was she and I skun out and we took the cows to the pasture

We got some willow and made us some whistles and someone squawked one in school and we all had to give our whistles to the teacher She said she was surprized I bet it was the Last Bag of Tripe

After school we went down and opened up the damn and let the water out and the pond was almost empty when we went for the cows and made us some new whistles so it was almost dark when we got home and my father jawed at me and told me to watch my step I don't care

ITCHING BLOTCHES
All Over Body
Sleep Impossible
Resinol Heals

For a long time I suffered from a breaking out all over my body The eruption was in the form of large red blotches At night they itched so bad I could not sleep and it seemed as if I could scratch the skin off Then they burned almost like fire I tried Resinol Ointment and Resinol Soap and the treatment healed my complaint I wish I had known about it long ago"

Love's Reawakening

A Wife's Triumph Over Jealousy

BY ADELE GARRISON

Marion Arouses the Sympathy of Auntie Madge

I HAD CONFIDENCE in my attempt to arm Marion against the influence of her roommate Uncle Charlie I saw that with a guilty little qualm as Lillian's young daughter with wide terrified eyes cried blood I can't bear it!'

It is never my way however to dodge an issue or a responsibility and I dealt with this one swiftly

Forgive me Marion I said putting my hand over hers I should not have said that to you I had no right but—

Yes you had she cried vehemently It's all true what you said If Mummy had been terribly ill and called for me you couldn't hate found me for hours And if she'd found out I had left the school without her knowing it, the worry would have made her worse Why it might have killed her'

Her Mother's Daughter

My grasp tightened upon her twisting fingers

But she isn't ill and nothing has happened I said quietly and you are making me very unhappy, Marion I feel so guilty—

I had touched the right chord Marion is her mother's own daughter instant in her response to any need of bruised flesh or spirit I was doubly ashamed of my momentary doubt of her as she quieted herself with a visibly painful effort and lifted her eyes, so like her mother's to mine

I won't say anything more about it, if it makes you feel bad, Auntie Madge But—there's one thing I mustn't do—I mustn't go with Carolyn and the others tonight"

There was bitter disappointment in her face, but it was not so strong as the resolution I saw there. Knowing the propensity of feminine adolescence for martyrdom, I should have expected the announcement, but it came as a complete and dismaying surprise to me

"Why?" I put the question steadily with no hint of my disquietude.

"Why?" she repeated as if puzzled. "Don't you see, Auntie Madge, it's my punishment. Besides, she won't want me to go"

I looked out of the taxi window for a full half minute before I answered, for I knew that her will power, an inheritance from both her mother and dead father, was not easily conquered But I knew also that in this case I had the powerful ally of her eager young heart Every fibre of her was alive with the desire to be [illegible] of the Delfson party, [illegible] the party which [illegible] by her mother's

Marion I said at last you believe that I know your mother pretty well don't you

I think you know her better than anybody else in the world' she answered promptly

And that I do dearly and truly

May I be impertinent and say that is foolish question number eight million and something?

I won't call it impertinence,' I said smiling at her serious face and I want to ask you one more question Will you let me decide just what action of yours would most [illegible] your mother In other words leave this whole matter to me?

She did not avert her eyes from mine and for a long minute she waited with rebellion battling against her subconscious longing to obey me Finally as I hoped the respect for my opinions in which her mother had brought her up bolstered her hidden desire and she yielded with pretty deference

"Of course Auntie Madge' she said Forgive me even for hesitating about it. I'll do whatever you say'

Madge's Task

'Thank you, dearest' I said softly "All I want you to do is to keep quiet no matter how upset your mother may appear when she first sees you I will see that you have a chance to go into your own room, where incidentally, Mary is asleep—or was when I left—while I explain everything to your mother".

There was patent relief in her eyes when I had finished, accompanied by something more tender, which she presently voiced

"You are so good to me, Auntie Madge, but then you always shoulder the disagreeable jobs. I ought not to let you—'

"Just stop right there Marion." My voice was firm though I smiled at her. "This isn't a hard task at all. But I must ask you one thing. Until I give you permission I do not want you to tell your mother of Mr Owen's flippant little speech that 'what she didn't know wouldn't hurt her' She will be upset enough about his being your escort, even though Carolyn's mother did send him for you both."

"I won't say anything about what you tell me," she agreed docilely.

"That is the only thing you are to keep back." I smiled. "Just that only until your mother is here you shall [illegible] all [illegible]

HOMERS WIN GAME FOR ERIE YARDMEN

RAILROADERS CLOUT THREE FOR CIRCUIT

Fairfield Defeats C. & O.; Osgood Loses to Huber; One Game Postponed.

HOME runs fairly rained off the bats of the Erie Railroad Yardmen in their game with the Marion Steam Shovel team last night in one of the three games played in the first round contests of the Industrial league, and the railroaders won by a 4 to 1 count.

Aided by some good pitching on the part of Stout, Erie retired the Shovel batsmen in one, two, three order in the first inning. Then, just to give the game a good start, Zahn cracked out a single on the first ball tossed by Jones, the Shovel hurler. The next man grounded out and Herring stepped to the plate, fished out one that looked good to him and hooked it over Bill Fabian's head in center to score himself and the man ahead of him. Adams went out on the next play and Griffith walloped another out of the outfield to score the second homer and third run of the first frame. A foul fly sent the railroaders to the field.

The Shovel was outplayed throughout the entire first four innings, not a hit being registered off the slants of Stout, Erie hurler. Not a Shovel man got further than second base during the first four innings.

In the fifth Bill Roush connected for the first safe Shovel hit of the game, getting a single. A sacrifice and a double brought in the first Shovel run. It was also the last for the best efforts of the losers could get but one man as far as third.

Jackman slammed another homer out for the Erie in the fifth to bring the score to four for his team.

Batteries for the teams were: Erie, Stout and Stalter; Shovel, Jones and Andrews.

• • •

Fairfield Wins

Fairfield Engineering Co.'s batters managed to nick Gruber, pitching for the Chesapeake & Ohio team, for nine safeties while the opposition could hit safely but six times to defeat the railroad team 6 to 4. Bob Gamble, pitching for the engineers, did not have as many strikeouts as usual but he kept the hits of the C. & O. well enough scattered to be in no danger of losing at any time. The railroaders only real threat came in the second, when they crossed the plate with three scores but they were not strong enough to complete the rally. Fairfield scored throughout the game One run was marked up in the first inning, one in the third, three in the fourth and one in the sixth.

The batteries for the teams were: Fairfield, Gamble and Corbin; C. & O., Gruber and White.

• • •

Two Big Innings

In the only possible upset of the three games played, the Huber Mfg. Co. team did a little better than was expected and handed the Osgoods the short end of an 11 to 0 count. Osgood is supposed to have a veteran lineup and a strong team but two big innings for Huber sent them down to defeat.

The winners scored a trio of runs in the second before the Osgood fielders could retire the necessary three. Osgood more than duplicated these three in their half of the third when they ran wild and scored six runs. This wasn't enough to dishearten the Huber team when they came in for the third and they walloped the ball hard to complete their scoring with eight more runs. After the big third, Osgood set the Huber batsmen down in one, two, three order for the other four innings.

The losers whittled away at the big lead of the Huber boys, scoring one each in the fourth, fifth, and sixth, but they were unable to overtake the five run lead.

Batteries for the teams were: Huber, Lantz and Wilson. Osgood, Baumgartner, Corwin, Hoffhines and Cleveland. The scheduled game between C, D. & M. and Erie Roundhouse teams was called off on account of wet grounds. It will be played next Wednesday at 6:15 o'clock according to the schedule makers.

SPORTSMAN'S HALL OF FAME

SOME people get all the breaks. No sooner had we gotten the head set for this feature than Dick Tuttle informs us that he has caught the first big fish for the 1930 season. We'll take his word for the catch, even though we didn't see it.

There being no other unusual happenings in the city yesterday, we nominate for the first niche in the "Sportsman's Hall of Fame," Tuttle, who dragged from within the shadowy depths of the Big Scioto, an eight pound catfish, measuring 25¾ inches in length.

According to Dick, it's all very simple, this catching big fish. Nevertheless, he refuses to divulge whether or not he used a bent pin or dynamite to catch his prize.

Now you tell one. Who's going to catch the biggest fish? Please don't all speak at once.

ON THE INSIDE

With

Bob Kirkpatrick

FOR the benefit of those individual players or groups of players who perform any outstanding or unusual athletic feats in the future, during any sport event, at present particularly any play made during a city baseball game, we are inaugurating for the first time in 1930, "The Sportsman's Hall of Fame." This will appear as a regular feature on this page in the future. At least, it will if Marion sport fans will cooperate with the sports editor in letting him know of the unusual feats. It doesn't make any difference if it happens in baseball, track, ping pong, or croquet, or what have you. WE WANT IT!

• • •

If Hap Applegett pitches the Trinity Baptists to another win over the Calvary nine, that's unusual. If Bob Gamble strikes out 17 men in another ball game as he did Tuesday, that's unusual! If John Clark wins another pennant, THAT'S NOT UNUSUAL! (But we might use it anyway.) If Jack Zeisler rolls another 200 score on the bowling alleys, that's unusual! If Bud Crum signs up for any more ball teams and still finds time to hold down his job testing meters, that's unusual. (He plays with four teams now). Lastly, if all the teams who claimed to be able to win the pennant in their respective league this summer, come through and do win—well, that won't be unusual. That will be a miracle! Don't forget to tell us about it.

• • •

THE first official protest of the 1930 baseball season has been registered with the secretary of the baseball commission. It has not come before the official scrutiny of the board as yet so the outcome is not known.

After Trinity Baptist walloped the Calvary nine 11 to 2, the latter apparently got busy and looked up what they thought was a very important reason why the game should be thrown out of the standings. They are claiming that the Baptists were playing an ineligible man. Until the person's name is brought before the board for action, we won't bother to reveal who the individual was. It is probable that Trinity will contend that it was a mere oversight on their part, for not having his name on the list of eligible players. Also, that he was a regular attendant of Sunday School and therefore eligible for play.

• • •

President Crissinger, of the baseball commission has asked us to remind the various team managers of the new rule passed this year which says, "No protest can be made unless accompanied by a deposit of $2.00". This is done for the purpose of discouraging a lot of protests which may not have any logical grounds. The deposit will be forfeited in case the protest does not go through.

Columbus Has First Class Fight Carded

The first outstanding boxing attraction offered in Columbus since New Years will be the Jimmy Reed-Midget Mike O'Dowd battle which is scheduled to take place May 19 in the arena at Hall's acre. It is to be a ten round affair at 132 pounds ringside weight.

Both fighters are anxious to win as the winner will be declared the champion of the city, a distinction both have been striving for, for some time. Since soundly thrashing Lou Bloom O'Dowd has had the honor of being first among Capitol City fighters but he will have to beat Reed to keep the title.

GALLANT FOX RULES FAVORITE IN RACE

Odds Stand 7 to 5; Tannery Backed Heavily To Bring Odds Down to 3 to 1.

BY ALAN GOULD
Associated Press Sports Writer

LOUISVILLE, Ky., May 16—The color and pageantry of America's greatest horse racing classic, taking definite hue and form today for the fifty-sixth running of the Kentucky Derby, centers about two decidedly contrasting figures of the turf—the English Earl of Derby and the freckle faced Yankee Earl of Sande.

Though they travel in separate spheres, the paths of these two will bring them into one and the same spotlight late tomorrow afternoon, for Earl Sande is the popular choice to ride the great eastern colt, Gallant Fox, to victory and enable his owner to receive the prized golf trophy from the hands of the distinguished British patron of the turf.

The Earl of Derby will witness for the first time the American racing counterpart of the classic English event bearing his name. The English Earl was expected to reach Louisville today from Lexington, where he has been visiting the choicest of blue grass breeding establishments. Tomorrow he will occupy a post of honor at the "derby."

Sande Returns

The Earl of Sande is no such stranger to Churchill Downs and the route that leads to the laurels of derby victory. Twice before, in 1923 and 1925, the boy who rode to fame from Idaho to New York has booted home winners in Kentucky's classic.

Just a week ago Sande rode Gallant Fox to triumph in the rich Preakness at Pimlico. If he wins again tomorrow he will equal the best record of any jockey in the history of the derby and Gallant Fox will duplicate the achievement of Sir Barton which in 1919 reversed the order, capturing the Preakness after a surprising victory in the Derby.

The odds are all in favor of Gallant Fox. The eastern colt was backed down today 7 to 5 by an influx of financial support and looked upon generally as the class of the field, with the possible exception of Tannery, strapping chestnut son of Ballot and owned by Edward F. Prichard of Paris, Ky.

Kentucky, always strong for its own, has "gone down" heavily on Tannery as the chief hope and pride of the blue grass. The odds on Tannery have been backed down to about 3 to 1. If the track is muddy, they may be even shorter, for Tannery is generally regarded to have a better chance of beating Gallant Fox in heavy going.

DAVIS CUP PLAY IS HALTED BY SHOWER; VAN RYN NEAR WIN

Will Resume Play for Zone Titles in Singles and Doubles Today.

By The Associated Press

PHILADELPHIA, May 16—As a result of a thunder shower which halted play yesterday when Johnny Van Ryn of East Orange, N. J., stood within two points of victory over Dr. Jack Wright, the Canadian captain, a bargain bill of three Davis Cup matches was on the program for today.

First on the schedule was the interrupted match between Van Ryn and Wright. With Van Ryn leading by a score 6-2, 6-2, 3-6, 5-2 and deuce on his own service, he had a chance to settle the issue in something less than half a minute. Two winning strokes in succession would turn the trick.

The second singles match between the United States team's No. 1 man, George Lott of Chicago, and Marcel Rainville of Montreal, was not even begun yesterday because of the downpour. The regularly scheduled doubles engagement between Van Ryn and Wilmer Allison, of Austin, Tex., and the Canadian combination of Willard and Crocker winds up the afternoon.

Mansfield Golf Club To Sponsor Tourney

The Ohio Seniors Golf Association will hold their second annual tournament at the Westbrook Country club, Mansfield, on September 4 and 5. Last year this tournament drew a good entry list and the playing course was praised by all the competitors. This year the course is in even better condition. The club house has also been improved and enlarged. T. R. Barnes, Mansfield, is chairman of the tournament committee.

About $3 per cent of the wine exported from Spain is used in France for mixing with wines made in the latter country.

EASTERN CLUBS GAIN MARGIN OVER RIVALS

Take Majority of Games in First Series of Intersectional Games.

BY HUGH S. FULLERTON, JR.
Associated Press Sports Writer.

ALTHOUGH two rainy days at the bunch did some serious damage to the schedule of the first intersectional series of the 1930 American league season, the results of the past two weeks have given ample proof of a clear margin for the eastern clubs over their western rivals. Starting May 1, the American league clubs played 49 games and the east's representatives won 32 of them winding up with Washington's 4 to 2 triumph over the Cleveland Indians in the only American league game which escaped rainy and cold weather.

The Senators put themselves above the .500 mark for the intersectional play by that final victory. They won seven games and lost six. Sad Sam Jones and Sam West, pitcher and outfielder, played the leading roles in winning the game. Jones kept Cleveland's 10 hits scattered as he outpitched Young Willis Hudlin and West drove in two Senator runs with a home run and a triple.

A's Took Best

The Philadelphia Athletics made the best showing of the intersectional play. They won eleven games and lost but two.

The New York Yankees won eight and lost three. Washington came in third while the Boston Red Sox tied with Cleveland, with six victories and as many defeats, St. Louis, Detroit and Chicago followed in order in the intersectional standings.

The National league, with the completion of its first intersectional series scheduled for today, also got in only one game yesterday. That one was a wild batting thriller in which the Boston Braves edged out the Chicago Cubs, 10 to 8. Both teams batted out 15 hits, pushed a run over the last inning. Chicago used five moundsmen. Hornsby and Lance Richbourgh hit homers.

The New York Giants provided some news for National league fans while they were idle in St. Louis by doing away with a jinx by the simple method of trading players. Clarence Mitchell, baseball's only left handed spitball pitcher, was added to the Giant roster in exchange for Ralph Judd, a young right hander.

Supplies for 'Picnic Moods' Are Handy at All Times

MANY astute young housekeepers arrest a lot of time from kitchen duty by calculating the picnic menus in the family. Picnic means informal meals—not necessarily a jaunt to the countryside armed with baskets and trifling camping equipment. It may be merely a porch service of sandwiches on trays, pure alfresco and a few delicacies but on a warm or balmy day may be much more acceptable than a formal dinner.

Supper picnic mood is likely to be the luncheon appearing almost any time it's the better part of common sense to have everything ready to seize on the mood when it arrives. "Picnic" means an emergency shelf containing all the wherewithal. And the more varied this stock the more frequently will it be used. Plenty of substantial ingredients but also a few delicacies. Whatever is chosen should be influenced by the amount of labor involved in preparation and if it's likely to detract more than it does then for a picnic for cook. Which brings up the puzzle of deviled eggs—that most popular of all picnic dishes but which takes time and work to prepare!

Essential Supplies

What the picnic shelf needs is a stock of foods that can be used as easy spreads. Chicken and other meats are always acceptable and one can now have them in cans for emergency use. All the canned fish (tuna salmon sardines kippers plus anchovy paste in tubes for flavoring will be useful. Canned mushrooms or mushroom paste, capers, India relish, pickled walnuts, pimientos, stuffed and plain olives, chutney, gherkins, pearl onions, sweet and sour pickles, catsup, soy and chili sauce are delicacies of flavoring which need be used only in small quantities but will glorify a humble sandwich filling.

An assortment of nuts—walnuts, pecans, filberts shelled and in tight cans—will come in handy in the making of sweet sandwiches. Ordinary cheese isn't ordinary when touched up with a little chopped walnut or pecans. Almonds chopped and mixed with diced chicken greatly improve the flavor. And a mixture of chopped ham and peanuts is equally pleasant.

Helpful Assets

Shellfish—Canned shrimps, lobster, the whole crabmeat are other helpful assets on the sandwich shelf. They need to be pepped up a bit with a spicy relish and mayonnaise to form a smooth filling.

As for sweet sandwiches—which may serve as emergency dessert when there is no other—the makings can easily be kept on hand. Canned small fruits, like figs, dates, prune and marmalades, nuts, raisins, candied cherries, ginger, dried or in syrup, candied orange and lemon peel, macaroons, glaces are a few possibilities.

Some of these sweets can be blended with cream cheese or the latter can be mixed with chopped nuts and spread on thin triangles of white bread. Candied ginger and cream cheese—cheese and cheese—guava jelly and pecans—dates or figs with walnuts—fresh bananas and walnuts ground and beaten into a smooth spread—are a few possibilities.

A convenience in the household with a taste for pimentos, is the little wooden chopping bowl and chopping knife. A moment or two of this rotary chopping and it minces finely any kind of food—and it takes less time to use and clean than the mechanical chopper. However for larger quantity chopping the latter is quicker and more effective and probably produces more even results.

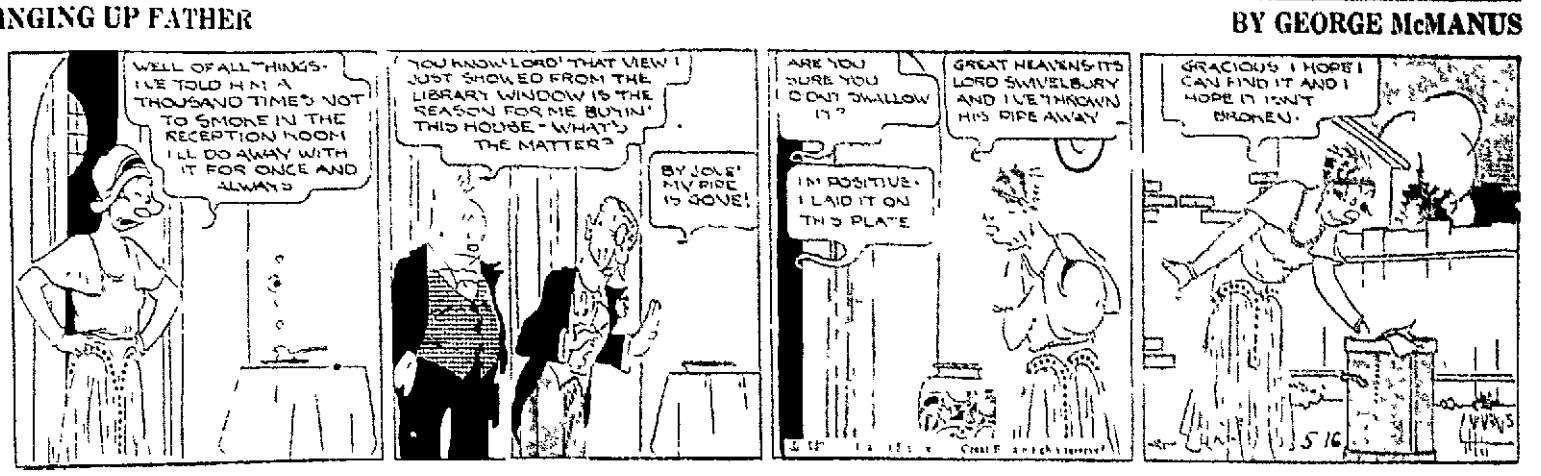
BRINGING UP FATHER — BY GEORGE McMANUS



WELL OF ALL THINGS- I'VE TOLD HIM A THOUSAND TIMES NOT TO SMOKE IN THE RECEPTION ROOM I'LL DO AWAY WITH IT FOR ONCE AND ALWAYS
YOU KNOW LORD! THAT VIEW I JUST SHOWED FROM THE LIBRARY WINDOW IS THE REASON FOR ME BUYIN' THIS HOUSE - WHAT'S THE MATTER?
BY JOVE! MY PIPE IS GONE!
ARE YOU SURE YOU DON'T SWALLOW IT?
I'M POSITIVE- I LAID IT ON THIS PLATE
GREAT HEAVENS ITS LORD SMIVELBURY AND I'VE THROWN HIS PIPE AWAY

TILLIE THE TOILER — BY RUSS WESTOVER

TILLIE MUST BE LOSING HER MIND- THIS FIRM HASN'T A CENT TO PAY FOR ANYTHING AND YET THEY KEEP BUYING THINGS
OH THEY SENT THE RUG FOR MY OFFICE
TILLIE I'M GONNA TELL YOU RIGHT NOW THAT IT'S A CRIME TO BUY THINGS WHEN YOU HAVEN'T ANY MONEY TO PAY FOR 'EM- AND WHAT'S MORE WHEN I'M A WILL TELL YOU THE SAME THING!

THE GUMPS — BY SIDNEY SMITH

TWO BIG EVENTS- THE COMING OF THE GREAT MOGUL DIAMOND- WHICH CAN ONLY BE SURPASSED IN BRILLIANCY AND SPLENDOR BY THE OTHER EVENT THAT IS TO FOLLOW IT- THAT HAPPY WEDDING DAY-
BIM CAN HARDLY WAIT TO SEE THE PRECIOUS JEWEL-
JUST IMAGINE A STONE THOUSANDS OF YEARS OLD-
WE HAVE HEARD NOTHING NEW ON THE GREAT MOGUL DIAMOND- WE KNOW THAT IT HAS BEEN SHIPPED- IT IS CAREFULLY GUARDED- HAS BEEN FULLY INSURED- HOW IT IS COMING- WHERE OR WHEN WE CANNOT TELL- THAT IS KEPT AN ABSOLUTE SECRET- BUT WE DO KNOW IT IS ON ITS WAY-
I'M CRAZY TO SEE IT- AND MRS ZANDER IS SO ANXIOUS TO GET A GLIMPSE OF IT-
THEY HAVE SENT ME A LARGE PICTURE OF THE STONE HOWEVER AND JUST TO SHOW YOU WHAT A REAL PRIZE YOU ARE GETTING THE STONE WAS ORIGINALLY 787½ CARATS- BORGIO THE CUTTER WAS UNSKILLFUL AND GROUND AND WASTED IT UNTIL ONLY 280 CARATS REMAINED- I WILL SHOW YOU THE SHAPE OF THE STONE-
IT IS OF FINE WATER- A BEAUTIFUL COLOR AND BRILLIANCY- AND FLASHES SOFT ROSY LIGHTS- IT STIMULATED KINGS IN THE OLD DAYS WITH A MAD DESIRE FOR ITS POSSESSION- AND CAME LIKE A METEOR TO LIGHT UP THE DARK AGES- IT FILLED THE NATIVES WITH SUPERSTITIOUS FEARS- THEY BELIEVED IT TO CONTAIN THE SPIRIT OF SOME DEITY- THEY FELL UPON THEIR FACES AND WORSHIPPED IT-
BOY! WHAT A WEDDING GIFT-
GREAT MOGUL

HIGH FOR MAY HIT BY WHEAT

Higher Export Demands, Liverpool Upturns Boosts Chicago Prices.

By The Associated Press

CHICAGO, May 16—Indications of large export business overnight, to- gether with fresh upturns in Liver- pool quotations, helped bring about an early advance today of the wheat market here. Pessimistic crop reports from the southern half of Kansas were also a bullish influence. Opening ⅝@¾c higher, wheat afterward scored additional gains. Corn and oats were likewise firm, with corn starting at ¼@⅜c advance and sub- sequently rising a little more. Provi- sions kept about steady.

Estimates were current today that overnight export purchases of wheat from Canada alone amounted to up- ward of 1,000,000 bushels. Assertions were also made that European tak- ings from North America yesterday amounted to 1,750,000 bushels instead of 1,000,000 bushels. By such factors Chicago wheat values rose quickly to the highest levels since May 1. Meanwhile, complaints persisted that despite the very best of weather, much of the Kansas wheat crop con- tinues backward.

One of the foremost unofficial Chi- cago crop authorities wired today from Wichita, Kas., that from Nex- ton to Wichita, including a wide circle nearly two-fifths of the wheat area has developed spindly short straw, thin on the ground with un- dersized heads. He said that similar conditions were showing up through- most of the southern half of Kansas. Special notice also was taken here of advices that wheat stocks at Hum- burg, Bremen, Rotterdam, Antwerp, Liverpool, Manchester, Genoa and Naples have decreased 1,723,000 bushels during the first half of May.

Today in Marion Markets

Groceries, Produce, Meats, Grain, Livestock

Further depressions in the egg mar- ket today set new low marks for the year. Wholesale price sank to 16 cents yesterday, and the retail mar- ket responded with further drops which set egg prices as low as 20 cents a dozen.

Even though prices are abnormally low, the market is weak, and the heavy supply brought from Marion county farms is not finding a ready market here.

A year ago the egg prices were around the 33 cent mark
